GIFSNAP BY ROWIX

GifSnap

GIF search for apps and AI agents

One API. SDKs across web and mobile.

Investor overview / October 2026

Developers need a simpler GIF integration

Adding GIFs means connecting search, media delivery and platform UI.

We are building for messaging apps, communities and AI assistants.

30 June 2026

Google sunset the Tenor API.

Our hypothesis: teams changing providers will value a small API and familiar SDKs.

The API and SDKs are live

API

GIF search and a working developer demo

SDKs

React, JavaScript and Angular
Swift and Android

Available today

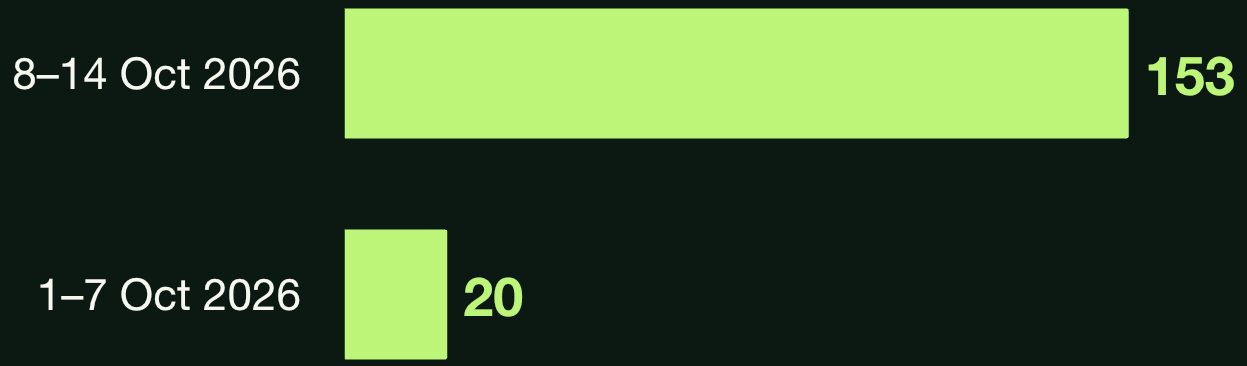

Android app on Google Play
Active MCP registry listing

Dify integration

Open-source preview
Marketplace submission pending

Search discovery is growing

Google Search clicks

30.5k

search impressions
8–14 October 2026

235

GA4 active users
10–16 October 2026

Includes owner/agent QA. Website discovery does not establish developer adoption or revenue.

Paid integration pilots test the business

$299

One-time integration pilot

A defined integration scope
and agreed acceptance criteria.

Offer stage. No verified paid pilot yet.

Next milestones

1 Three independent design partners

2 One accepted paid pilot

3 One independent integration
still active after seven days
